Navigating the Program
IFA’s 14th Global Conference on Ageing

The International Federation on Ageing (IFA) is proud to present the preliminary conference program that brings together a vast array of information from presenters from over 70 countries all contributing to Toward a Decade of Healthy Ageing: From Evidence to Action.

With the Conference only days away the program provides delegates with the opportunity to plan their personal program in order to maximize learning, social and networking opportunities.

Keynote and plenary arm chair sessions are discussions on current and emerging issues convened in the morning and afternoon of each day – providing delegates the opportunity to ask questions of international experts. Concurrent sessions of symposiums, workshops and papers form the glue of the program – delegates are spoilt for choice!
